### **SGW signs new framework supply and development contract with BT**

SGW is proud to announce that it has entered into a new contract with its major customer BT for the existing products it supplies and which will be essential in bidding for future opportunities in BT's product roadmap.

Malcolm Paton, Executive Director of SGW, commented, "BT is a great customer with high quality standards and code of conduct. Being able to supply them is a challenge for any manufacturer, and we are committed to meet their challenges and further develop our long term relationship."
